Symbiosis Skills and Professional University
Pune, India

Introduction

The signing parties intend to cooperate in the field of vocational education and training. The objective of this cooperation is to foster the talents of the students and give them the opportunity to apply and extend their intellectual, creative and social abilities in a multi-national environment. Both parties wish to contribute to the personal development of young people, a peaceful cooperation between the nations and an understanding of democracy. To underline the intention to cooperate closely for these purposes both institutions sign this Letter of Intent.

Areas of Interest and Nature of Cooperation

- 1.) Both sides intend to share information, expertise and best practices; and to cooperate in mutual areas of interest in the field of technical and vocational education.
- 2.) Joint projects in the area of teaching and student activities are aiming at promoting the professional skills and competences of the students and intend to give the students the opportunity to apply and extend their competencies.

Professional University

- 3.) The implementation of specific measures follows a mutual agreement on working level within the school partnership.
- 4.) This Letter of Intent expresses the objective of both parties to cooperate in the field of vocational education and training. It does not intend to create a legally-binding contractual relationship between them.

Duration of the cooperation

- 5.) This Letter of Intent is supposed to serve as a basis for cooperation for a period of one year. It comes into force after signing on 08 July 2025 and shall take effect to 08 July 2026. Thereafter, both sides shall review the status of the cooperation and may extend it in a new agreement.
- 6.) In the event that any party wishes to terminate the Letter of Intent before the expiry date, a six-month notice in writing to the other party shall be given.
